ESENCIA MATERIAL / CLEO

BY ERICO NAVAZO

A collection of five pieces designed as a decorative system. CLEO invites creatives to imagine, to dream, with millions of different possibilities to create graphic canvases. CLEO transforms refined materials such as ceramic wood that revives the Japanese plaster and clay technique of Yakisugi, on which he traces brushstrokes that simulate lime, red chalk, and charcoal.

Una colección de cinco piezas decoradas a modo de sistema decorativo. CLEO invita al creativo a imaginar, a soñar, con millones de posibilidades diferentes para crear lienzos gráficos. CLEO transforma materiales nobles como una madera cerámica que recupera la técnica japonesa del Yakisugi, el yeso y el barro y sobre ellas traza pinceladas que simulan cal, granilla roja y carbón.

ESENCIA MATERIAL / JAI

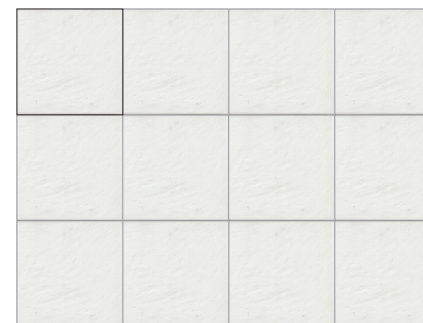

BY ERICO NAVAZO

Using volume and geometries, JAI elevates a simple and humble material such as plaster into a material full of nuances. This textured cladding combs linear and curved geometric motifs on the ceramic plaster, which when combined allow scenes to be recreated or decoration to be incorporated without overwhelming, as a result of a neutral colour scheme with an off-white that is perfect for recreating warm atmospheres.

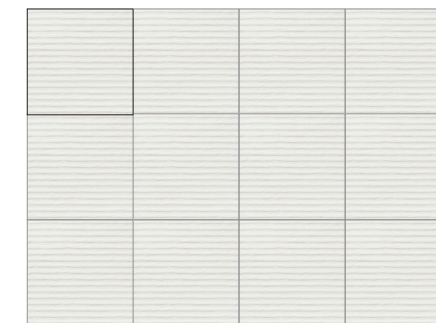

A través del volumen y las geometrías, JAI eleva un material sencillo y humilde como el yeso, en una materia llena de matices. Este revestimiento texturizado peina sobre el yeso cerámico motivos geométricos lineales y curvos, que combinados permiten recrear escenas o introducir decoración sin abrumar, gracias a una apuesta por un cromatismo neutro, con un blanco roto perfecto para recrear ambientes cálidos.
